About the Information We Collect and How We Use it

1.Registration

To create your account as a SwPt registered member, you must choose a Profile / Account Type such as Single or Couple, Nick, Password and Email. It will also be necessary to fill in the required fields of registration, which are duly identified, for all persons in the profile, as well as the completion of a security code (when and if applicable) and the reading and agreement with our Terms of Use and our Privacy Policy.

We additionally may ask you to provide certain personal information, such as: to Describe Yourself, Zip/Postal code, Skype contact, Height and Weight, Eyes and Hair Color, Relationship Status, Sexual Preferences, information on smoking, drinking, tattoos or piercings, and to upload a photo to be used as your Avatar/Profile Picture. Also, profile information may be added whenever you attend an SwPt Event.

Your Username is used to provide a unique ID account with which you can access SwPt. As such, your Username and Avatar/Profile Picture will be visible to anyone who visits SwPt public access pages.

Your e-mail address is used to identify you in our system, to contact you in connection with your activities on the site (including, but not limited to, confirmation e-mails or important news affecting your relationship with SwPt, marketing and promotional emails from our marketing team, as well as to gather feedback via surveys or questions to enable us to improve our site according to your needs and suggestions), and to forward messages destined for you and sent by other SwPt members.

Your Profile Description, Zip/Postal code, Height and Weight, Eyes and Hair Color, Relationship Status, Sexual Preferences, information on smoking, drinking, tattoos or piercings may be viewable by other SwPt active members.

You control whether other active members registered with SwPt may or may not see your email contact (Skype contact) on your personal profile page, and you can also limit access to your account or partial content of your account by using the privacy setting tools available depending on the type of status of your account.

Keep in mind that even when you restrict who can see your profile and personal information from your profile page, it may in some cases be made available to people on your network (for example, your friends), as well as it may be possible that members of any private group to which you belong are able to see this information, and that members who already know you can find you in searches by search by email address, Nick or location. SwPt will never share your personal information with any unregistered user of our site nor with any third party or any other person without your explicit consent.

Finally, note also that after the registration, SwPt will send a successful registration confirmation / welcome to SwPt email, eventually with instructions on how to complete registration and activate the account, in order to access the contents of the site (when applicable and depending on the type of account and profile).

2.Groups

Another important feature of SwPt is your ability to create groups based on common interests and invite contacts who share that interest to join your group. If you create a group, you will be required to provide a minimum of information to identify the group, without which it will not be possible to create a group, such as group name, a unique abbreviation, avatar / profile photo and description of the group. All groups created have to be approved by the SwPt Administration whose criteria for deciding whether or not to approve comply with the SwPt Terms of Use.

3.Your Profile Page

Your profile page will include information about yourself to enable other SwPt members to find your profile in searches, and invite you into their friend-lists, Events, Groups or Short Instant Messaging. Information about your profile may be viewable by all SwPt active members. If you choose to upload an Avatar/Profile Picture, it may also be viewable by all SwPt members. You will choose which other additional optional information appears on your Profile page, although Nick-Name and Avatar/Profile Picture are always visible by your direct contacts and even to non-members who visit SwPt public access pages. However, your profile description or your photo albums, as well as the URL access to all photos menu, have no public access.

Profile information may include the following: personal description, Zip/Postal code, Skype contact, e-mail address(es), personal interests and anything else you choose to share. Through the Profile page, you control the information displayed in your profile and, as a result, determine who can find you in searches for specific profile information (although anyone who knows your nick or email can search for these and find them, even if you have restricted access to the profile, even though they may not be able to view your profile).Providing certain profile information is optional; however it enables SwPt members to better identify each other and more effectively connect and interact with their network. We may use demographic information to tailor the Site to your interests.

4.Cookies and Log Files

Like most web sites, SwPt uses cookies and web log files to track site usage. A cookie is a tiny data file that resides on your computer and allows SwPt to recognize you as a member when you return to our site using the same computer and web browser. Unfortunately, if your browser settings do not allow cookies, you will not be able to properly use our website. Cookies also help us understand how members use SwPt, which allows us to continually improve the service. Like the information you enter at registration or in your Profile, cookie and log file data is used to customize your experience on the web site.

A cookie, known as a "persistent" cookie, is set when you log in to your SwPt account if you check the "remember me on this computer" box. The next time you visit the SwPt web site, the persistent cookie will allow us to recognize you as an existing member so you will not need to log in before using the service. In order to change your e-mail address or password, however, you will need to re-enter your password even if your computer contains your persistent cookie. Additionally, if you log out of the SwPt site you will need to re-enter your password the next time you visit in order to log in to your account. Another type of cookie, called a "session" cookie, is used to identify a particular visit to the SwPt site. Session cookies expire after a short time or when you close your web browser.

Due to the communications standards on the Internet, when you visit the SwPt web site we automatically receive the URL of the site from which you came and the site to which you are going when you leave SwPt. We also receive the Internet protocol (IP) address of your computer (or the proxy server you use to access the Web), your computer operating system and type of web browser you are using, as well as the name of your ISP (Internet Service Provider). Tracking technologies are used to gather statistical data on user conversions, including sales and registrations. This information may be used to analyze overall trends to help us improve the SwPt service, but is not linked to personally identifiable information in any way.

5.Minors - Person(s) under 18 years of age!

In compliance with the Children's Online Privacy Protection Act, we will not knowingly provide access to SwPt to persons under the age of eighteen (18). If SwPt later learns that a member is under legal age, we will take appropriate steps to remove the member's information from the database and restrict the individual from future access to the SwPt service. Since all Members are activated by photograph or account upgrade, in case of doubts regarding the age or profile of the user, SwPt reserves the right to

condition access to SwPt and to request personal information such as a document or official documentary proof confirming the date of birth.

2.Other SwPt Members or Non-Members (Inactive-Members)

Occasionally you may invite a non-member of SwPt to register with the site and join your network or group. You also may invite SwPt members to join a group or become your friends. In these cases, SwPt generates an e-mail message to your invitee that may list information such as your Username and Avatar/Profile Picture (if you have provided one). The rest of your contact information, as well as the level of information displayed (besides the mandatory registration fields), will only be shared with the members you have set in the Profile Settings, Profile Privacy Settings and Account Privacy as allowed to view your profile and personal information. In addition, when you visit another SwPt member's profile page, we may share with that member your Username and Avatar/Profile Picture (if you have provided one), as well as the date and time you visited the page. And also: My Friends, Personal Validations, Profile Comments, Blog Comments, Participation in Events, Chat rooms, Groups of Interest, Prize and raffles Lists and internal and external search engines may display your Username and Avatar/Profile Picture.

3.Advertisers

We may use third-party advertising organizations like Swinger Clubs or Private Parties Organizers to advertise products or services on our site. These organizations may employ cookies and tags to measure advertising effectiveness. Any information that these third parties collect via cookies and tags will be completely anonymous.

In addition, SwPt may use his Maketing team and the tools available in the site to advertise any products or services in the best way SwPt sees fit, either from SwPt, SwPt associates or third-parties, using the internal site inboxes or the e-mail address that members provide in their profile information. However, this action is taken internally and no personal information will ever be sold, provided or leased to any third-party without the proper consent.
